<i>Hydraulic Return Pressure (Max):</i>	400 bar (4351 psi)

The very popular HK432 Powerig is suitable for use with most Huck Installation Tools. It's built in wheels and detachable handle together with compact size, make this unit easy to move between work stations. It also features a built in temperature switch to prevent the unit being used when the hydraulic oil level is too low.

The Powerig automatically starts when the Installation Tool Trigger is activated and stops when the Installation Tool cycle is complete.
